

READY
FOR
SPRING

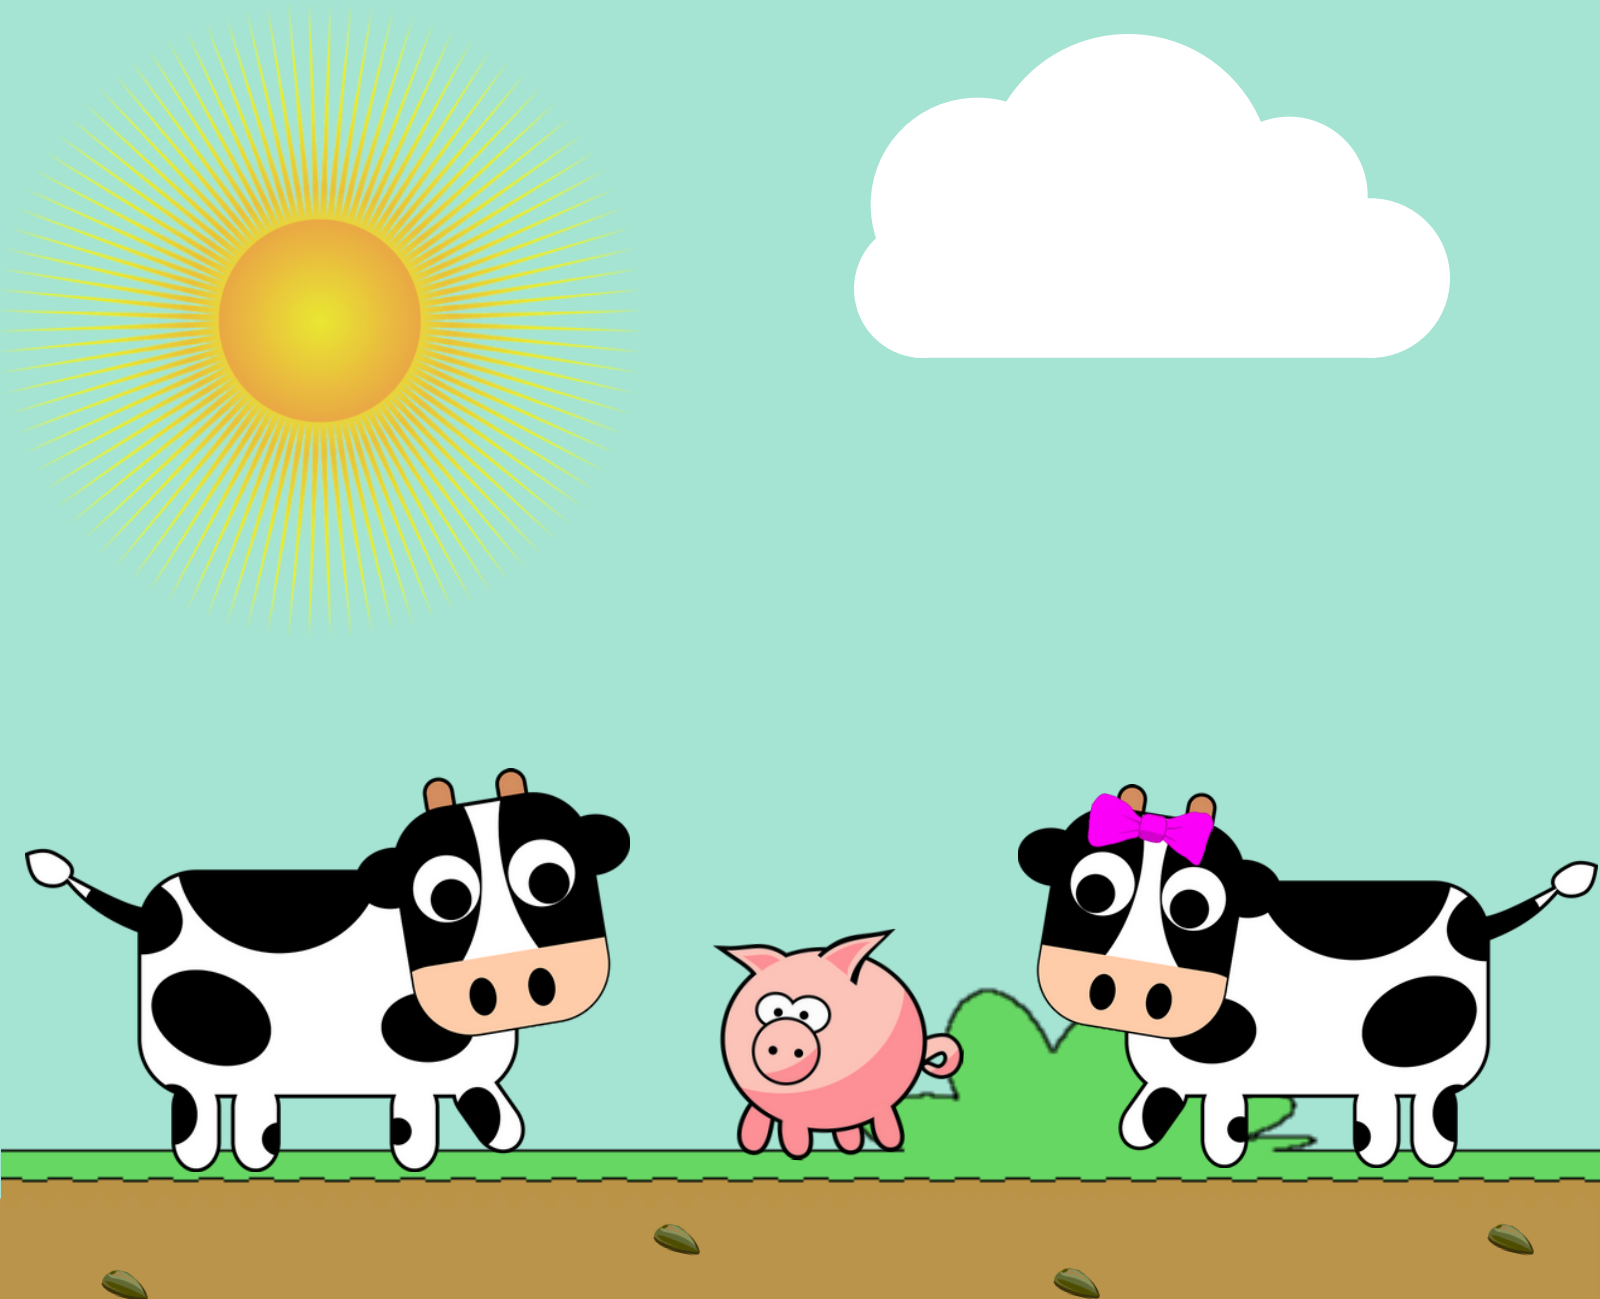

by Tawnie Chambers

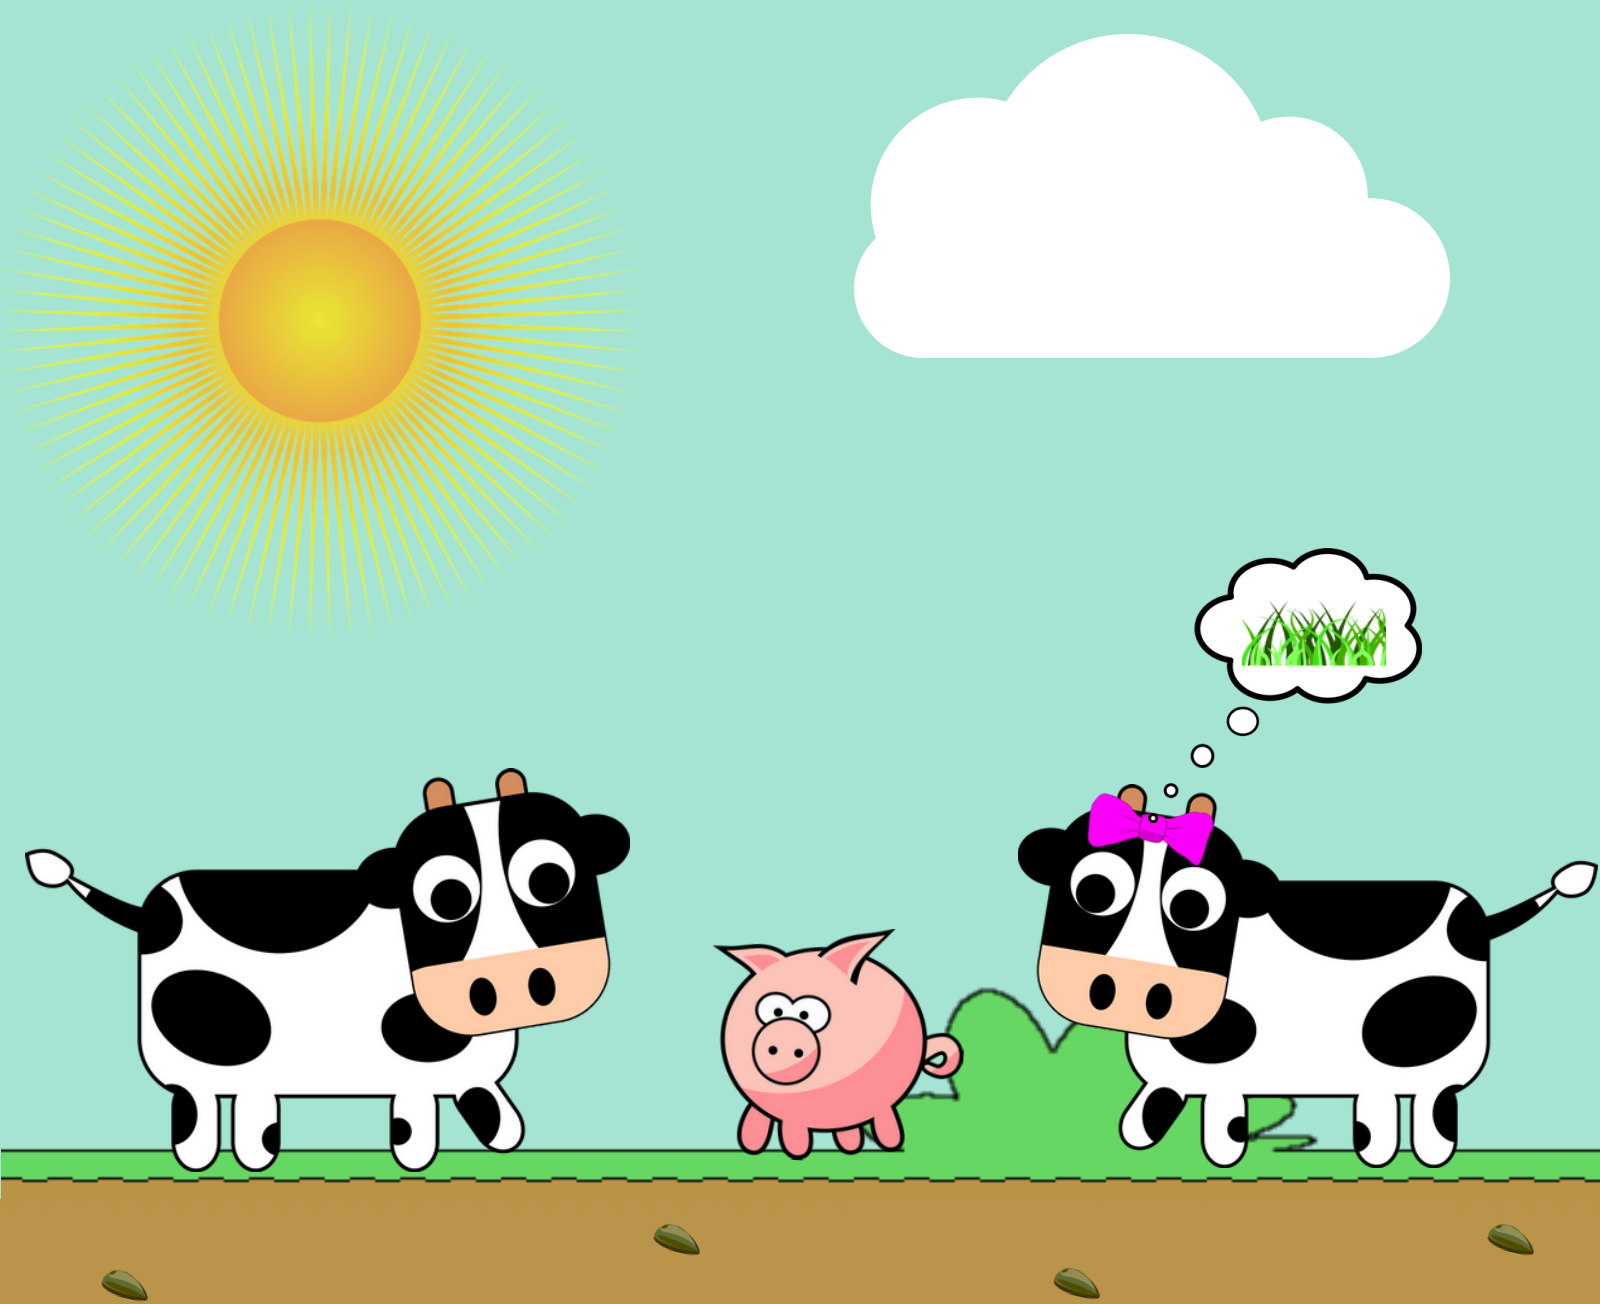

It is almost time for spring!

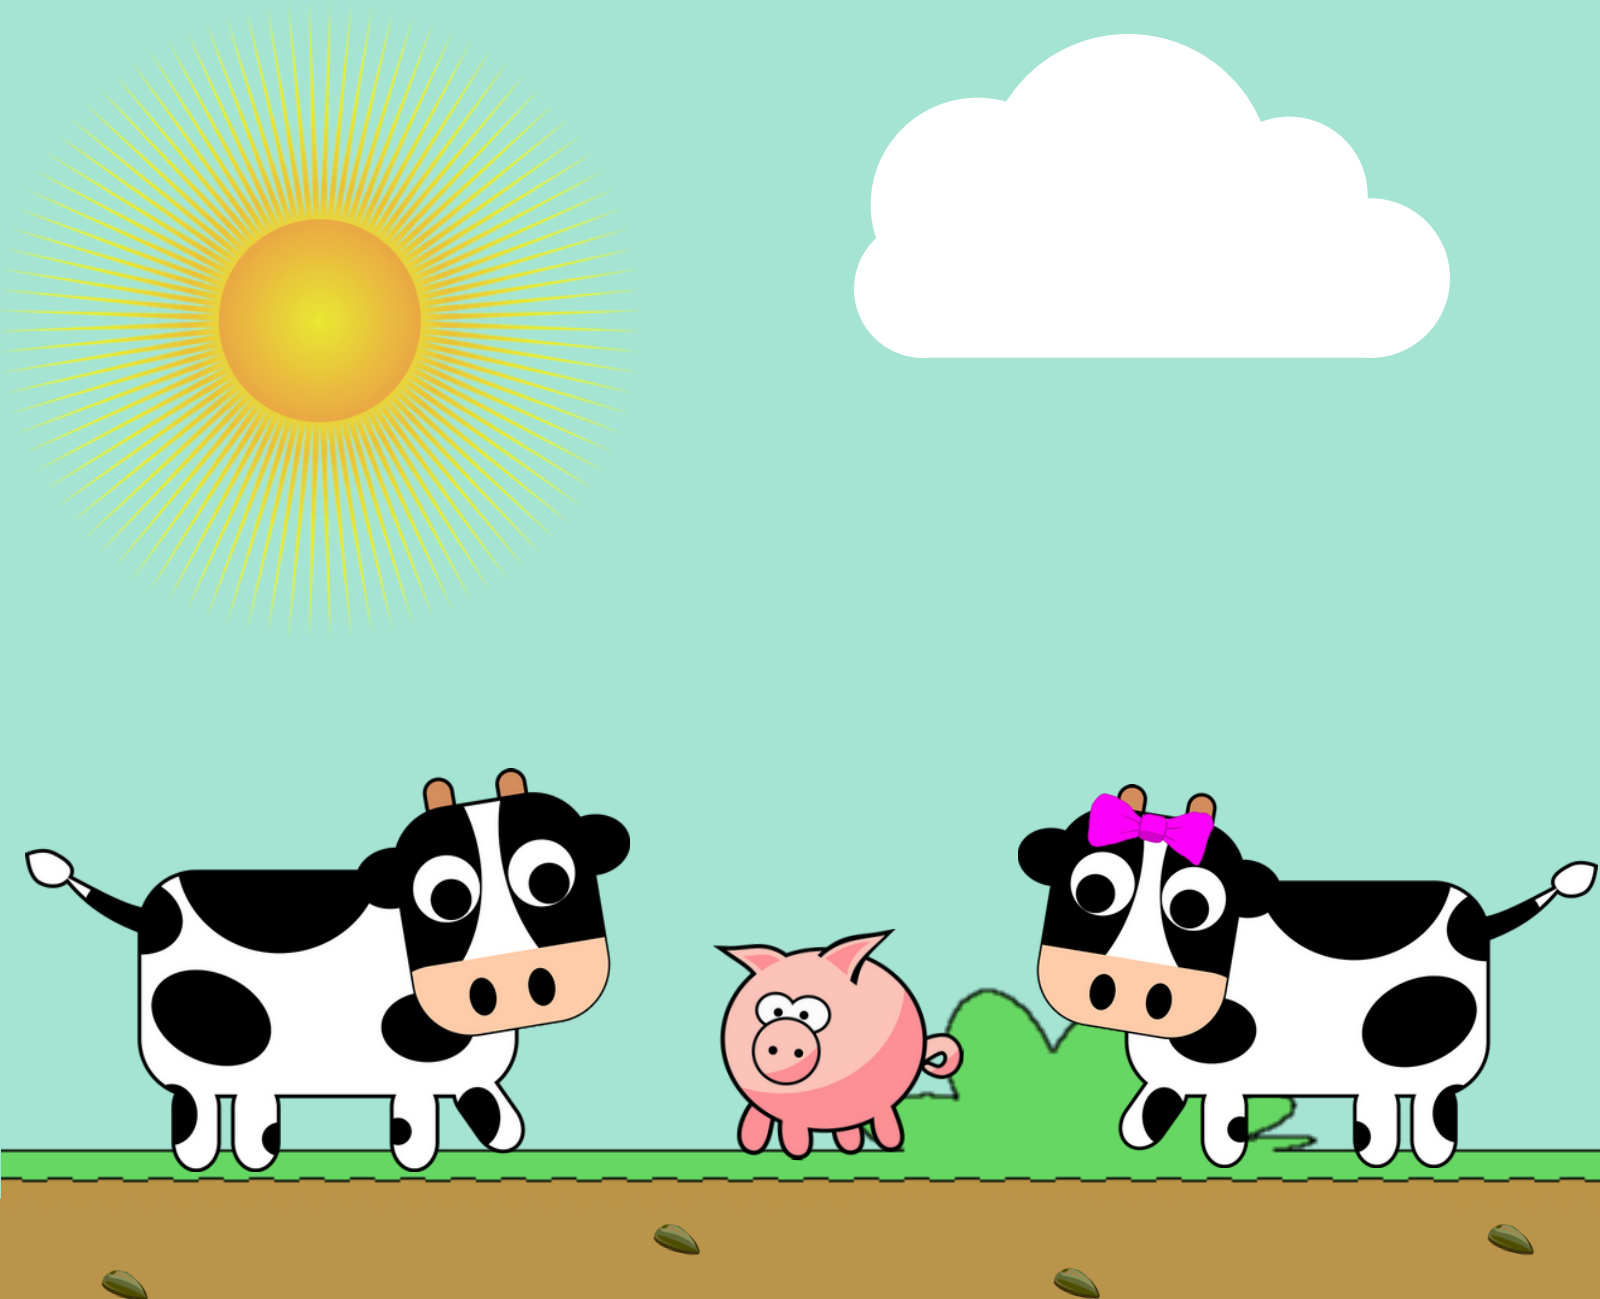

Spring is when plants grow!

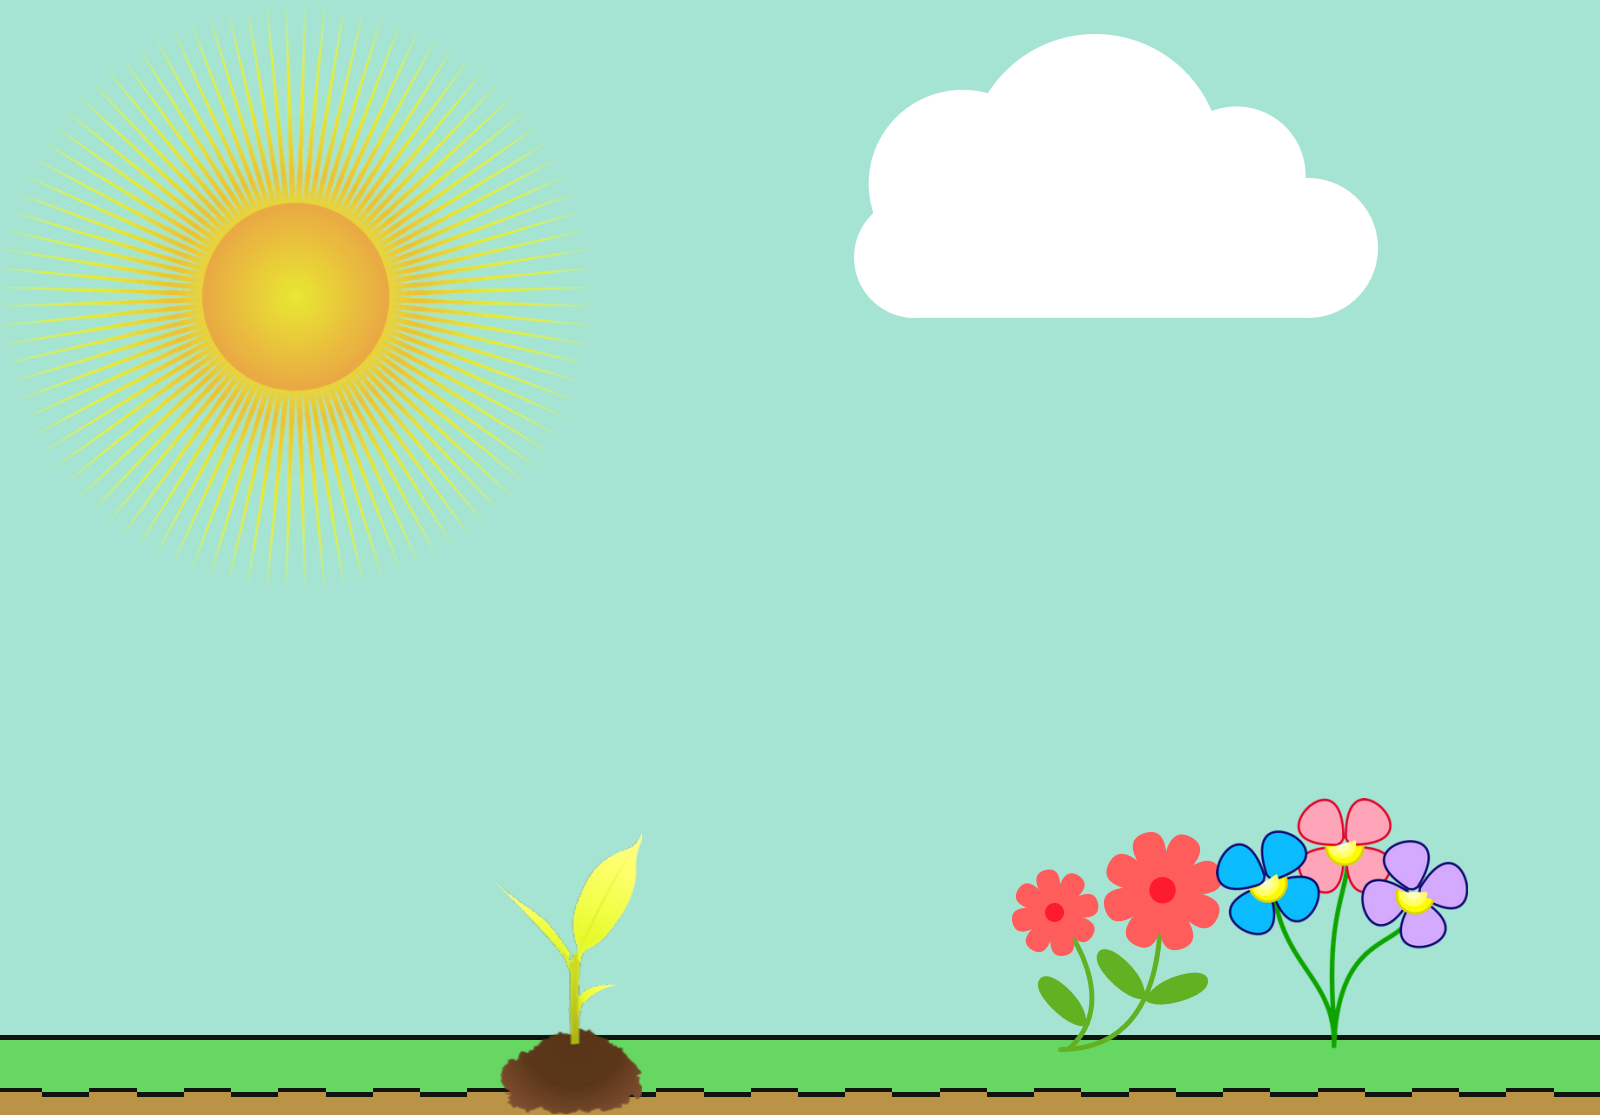

"Right now there are seeds
under the ground," says Moe.

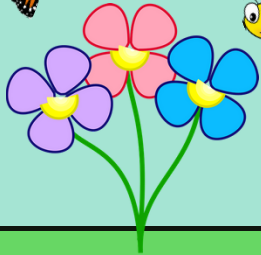

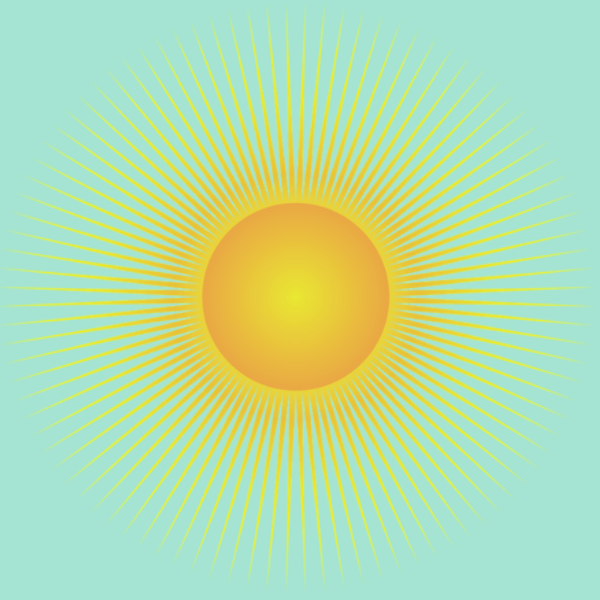

"Soon they will grow into grass,"
says Mimi.

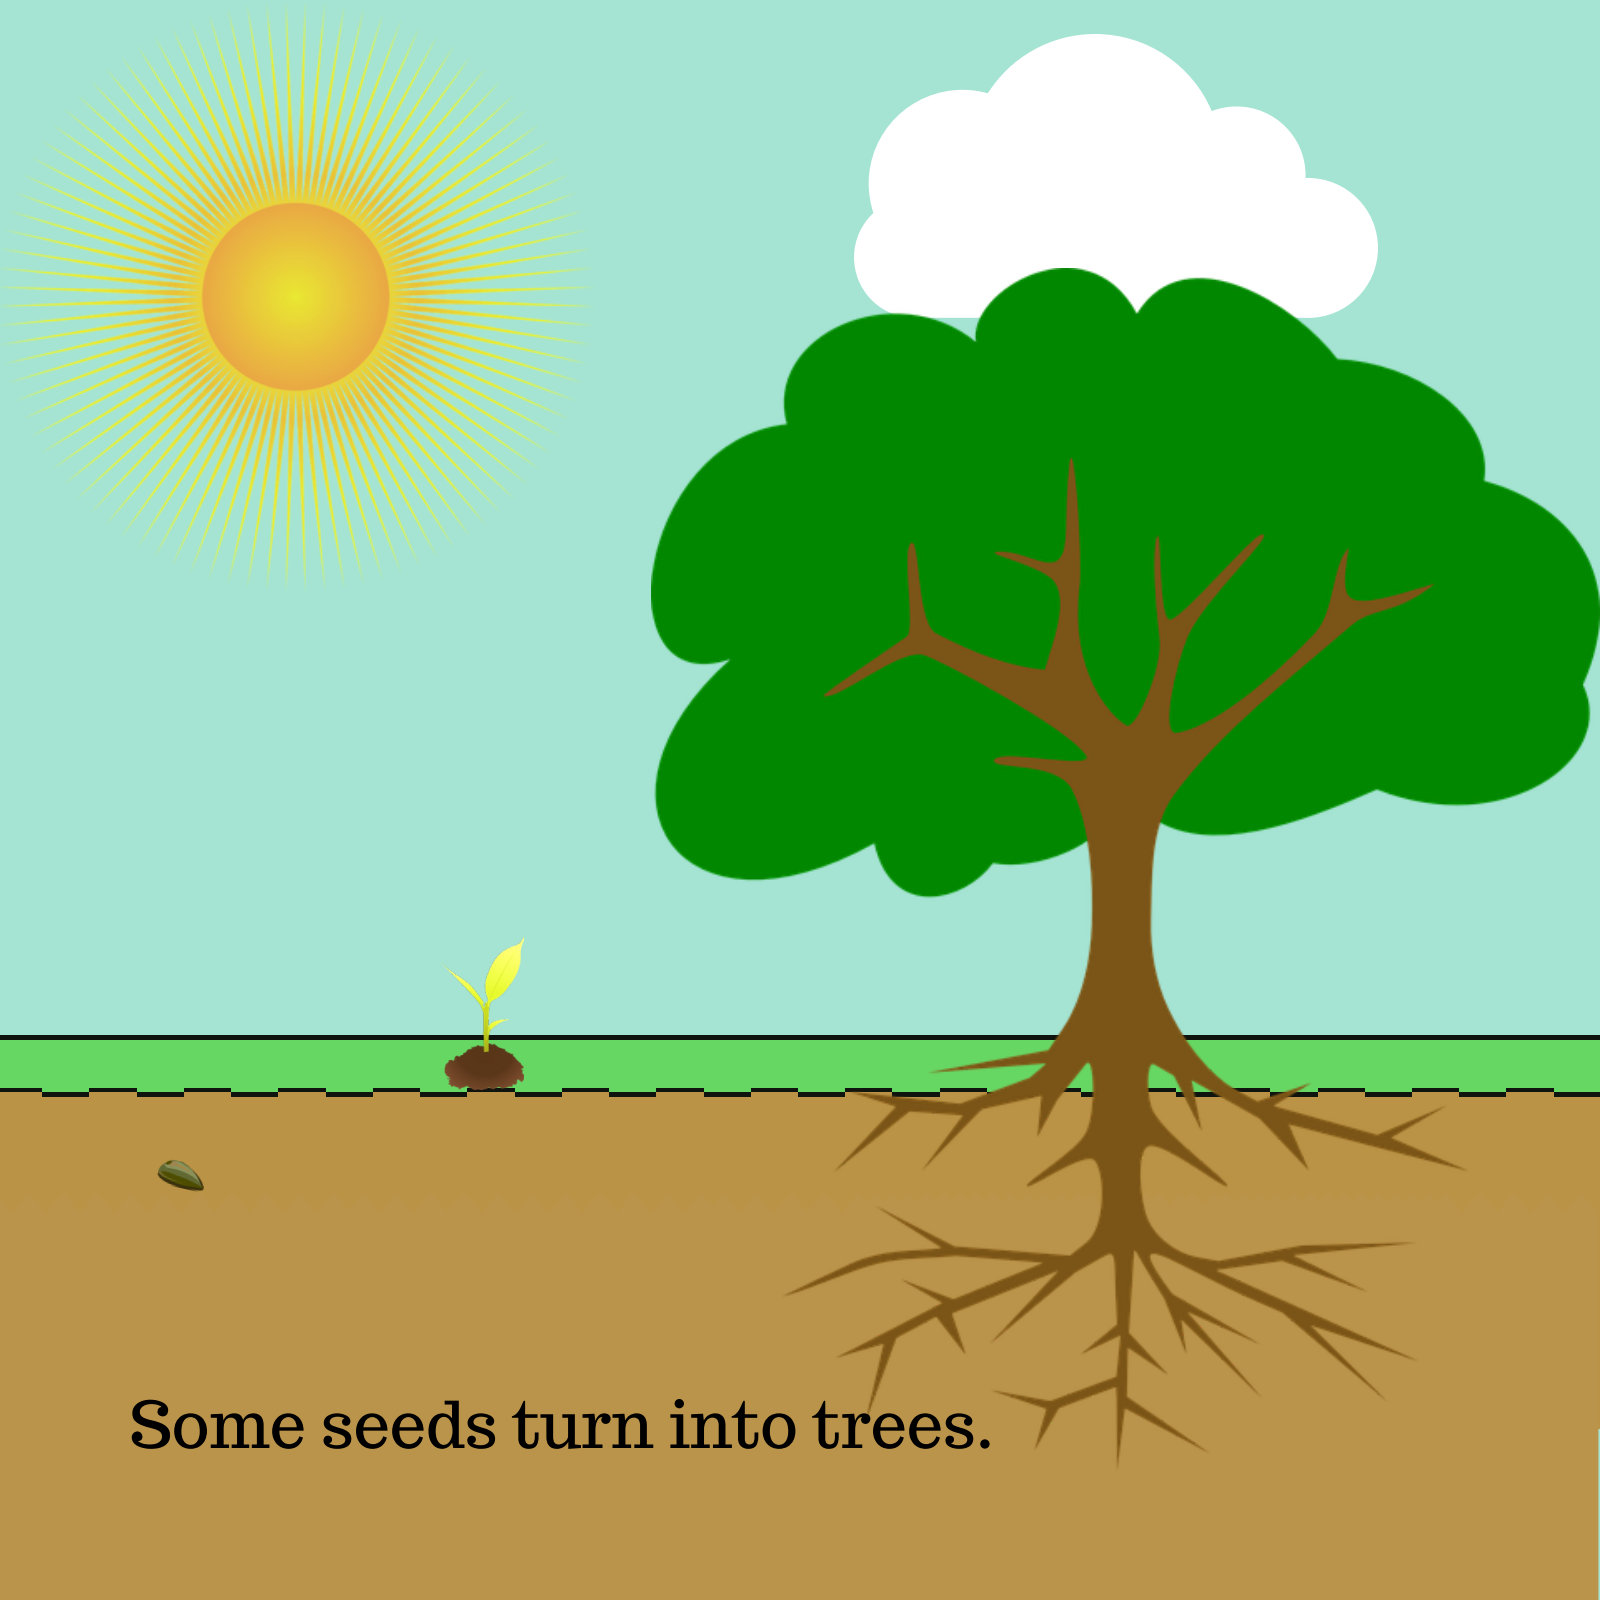

"And then we can eat the grass!"
says Patty.

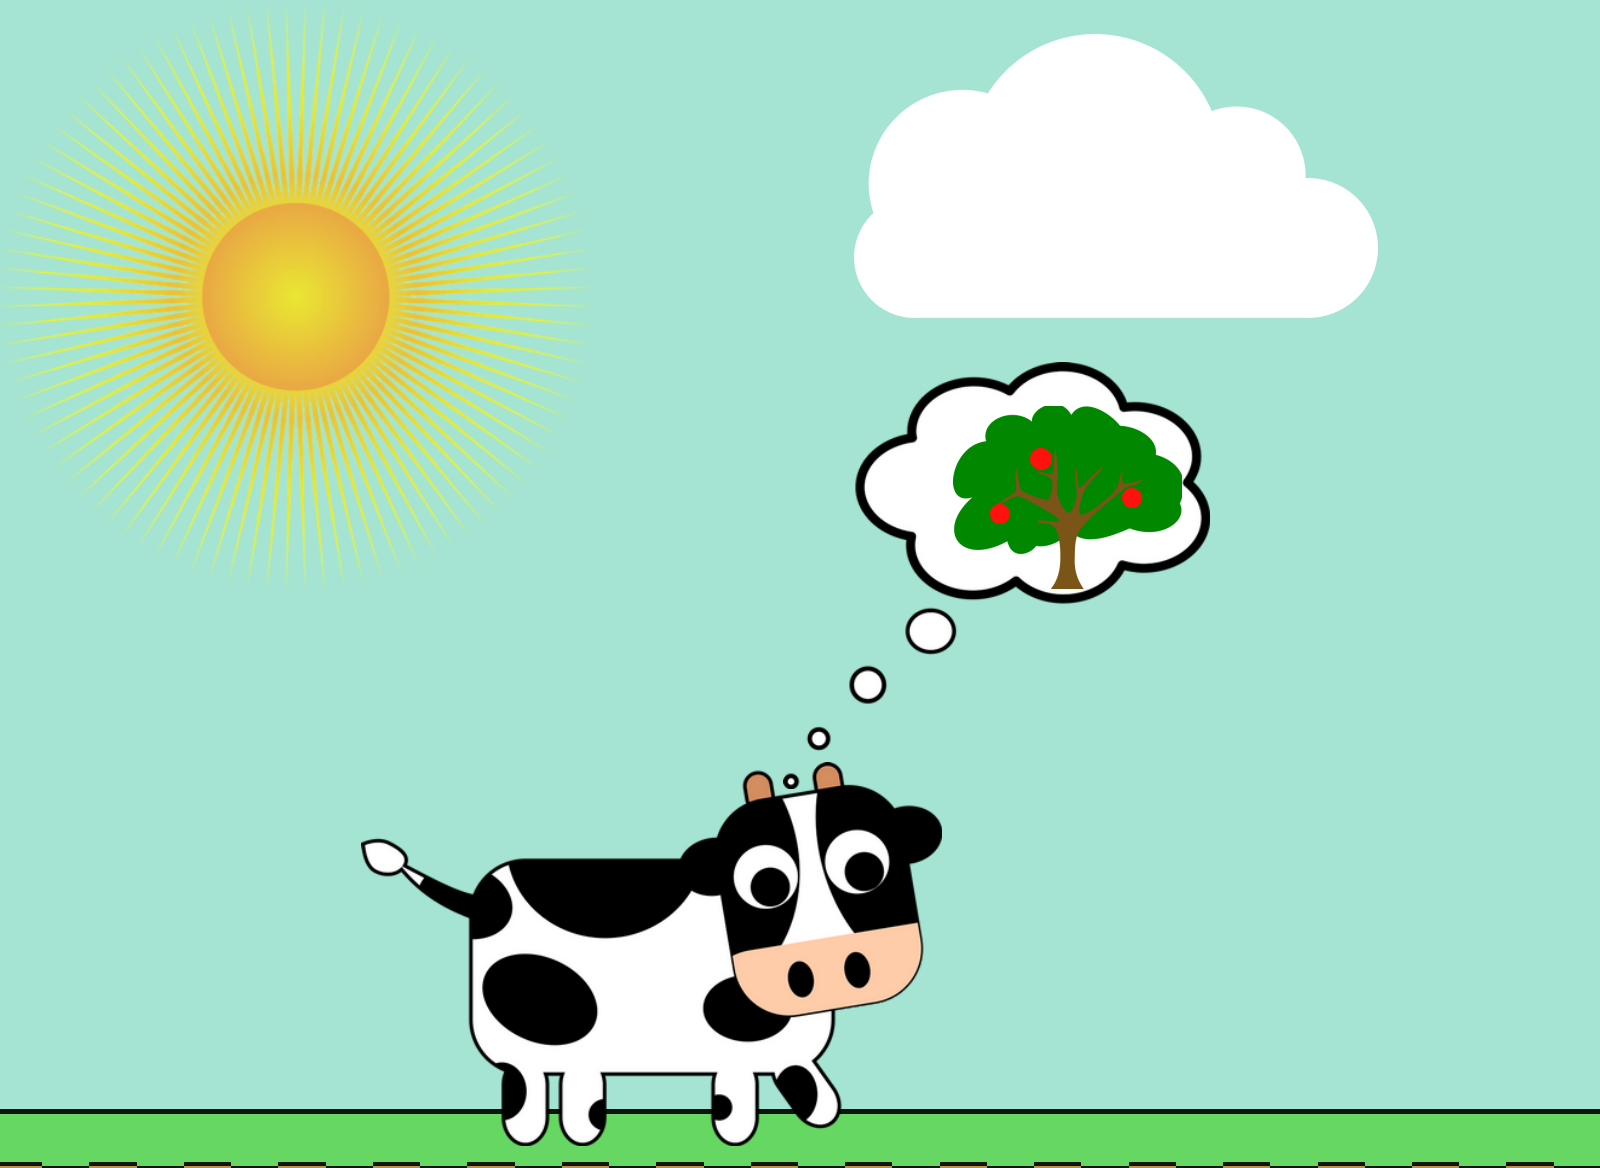

Some seeds turn into flowers.

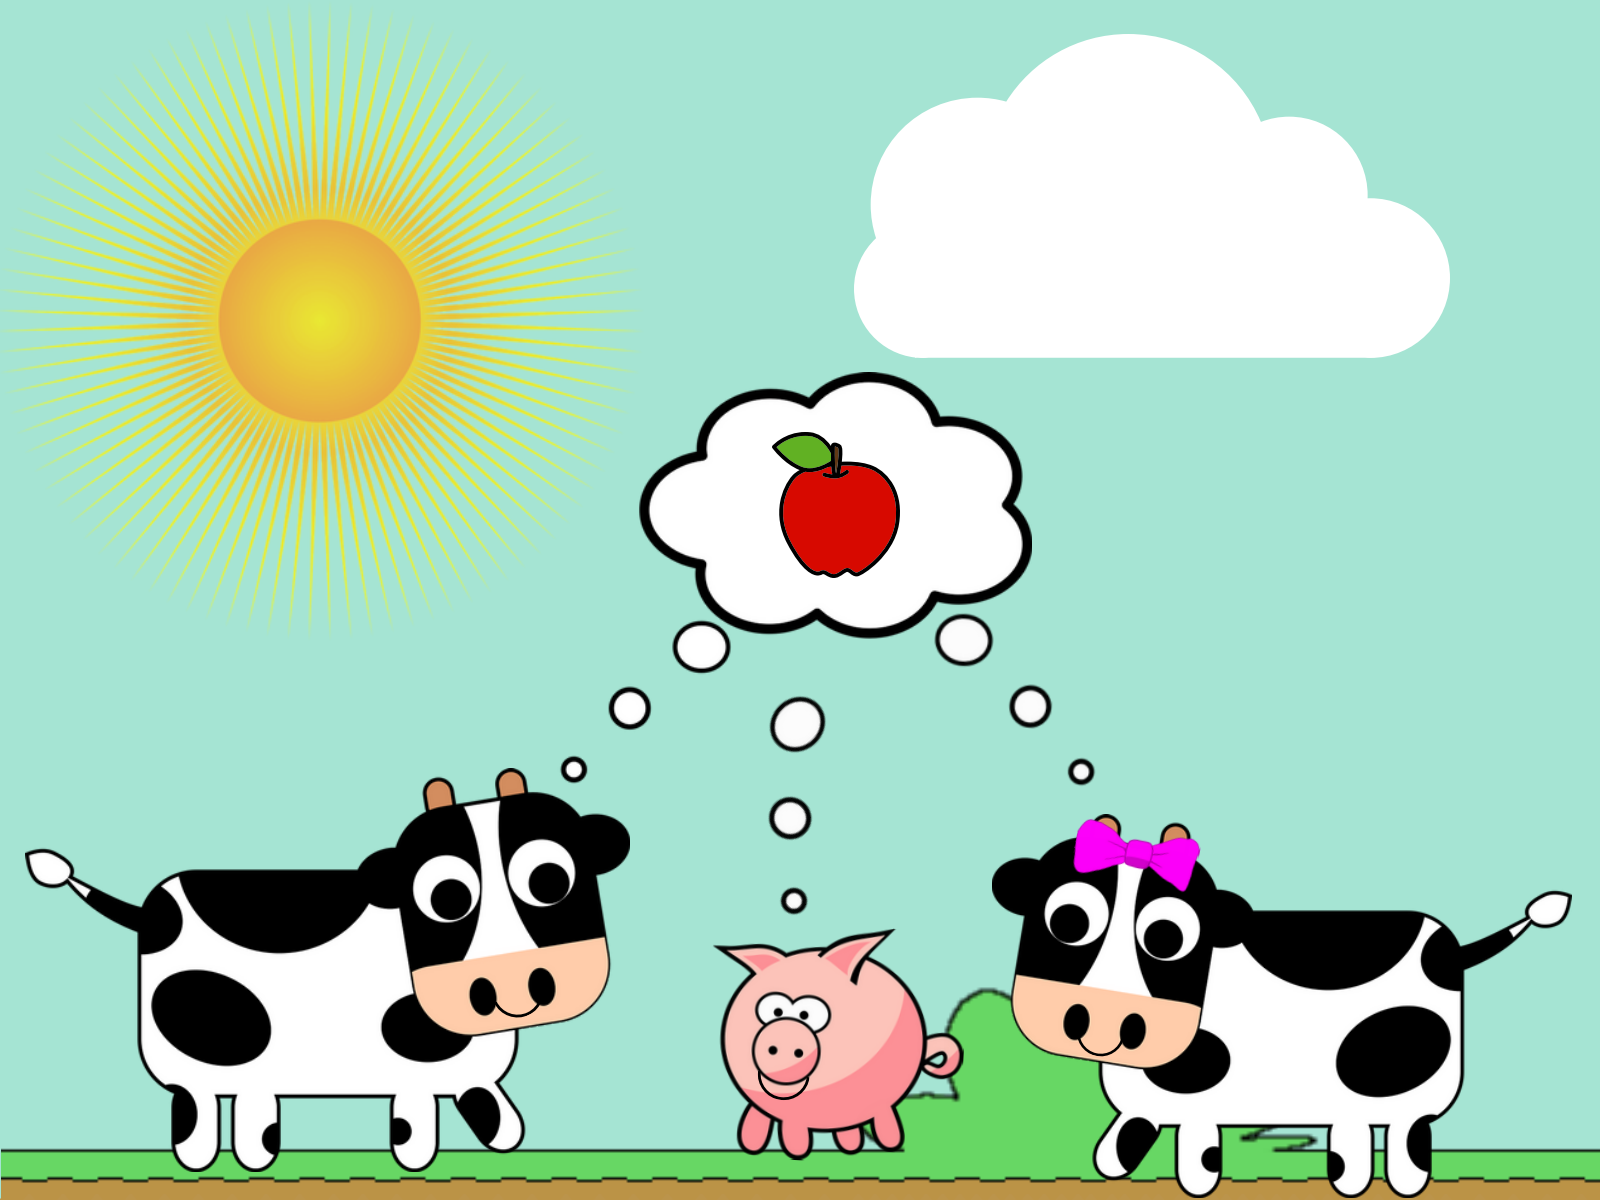

Bees and butterflies love flowers!

Some seeds turn into trees.

"Trees give us fruit!" says Moe.

Everyone is excited to eat apples!
